

THREE MILLION SOUTHERN WHITE CHILDREN OUT OF SUNDAY SCHOOL

Sixty-Five Per Cent of Population of Southern States Out of the Church—Needs of Japan's Forty Millions of Rural Dwellers—Uncle Sam's Islands—104,671 Aliens Admitted to This Country in 1913.

By Southern Missionary News Bureau
Ida Clyde Clarke—Editor.

In an effort to raise \$37,500 for Sabbath school extension, the general assembly of the Presbyterian Church in the United States has issued an interesting chart, which brings Christian people face to face with some appalling facts.

It shows that over three million white children in the south are not in the Sunday school, and that 65 per cent of the population is out of the church. South Carolina shows the largest Protestant membership—forty-five per cent—while Oklahoma shows the smallest, or less than twenty per cent.

The chart shows the other states to stand as follows: with regard to Protestant church members: Georgia, forty-two per cent; North Carolina, thirty-nine per cent; Virginia, thirty-eight per cent; Alabama, thirty-eight per cent; Mississippi, thirty-seven per cent; Florida, thirty-two per cent; Tennessee, thirty-two per cent; Kentucky, twenty-nine per cent; Arkansas, twenty-eight per cent; Texas, twenty-six per cent; West Virginia, twenty-five per cent; Missouri, twenty-five per cent; Louisiana, twenty per cent. The figures are approximated.

The chart shows that the larger number of children are converted at the age of fifteen, sixteen and seventeen.

The Need in Japan

The "committee on distribution of forces" appointed by the Conference of Federated Missions, says in its report: "Approximately eighty per cent of the total population in Japan, or about 40 millions, reside in rural districts, of which number, so far as our data indicates, ninety-six per cent constitute an entirely unworked field. Of the remaining twenty per cent of the total population, residing in cities and towns, about one-fifth are still unprovided for, thus giving the result that above 80 per cent of the population of Japan are not being reached by the evangelistic forces. Four times the present number of Japanese workers will be required to put in the field one Japanese evangelistic worker to approximately 10,000 people."

Uncle Sam's Islands

Uncle Sam possesses exactly 8,000 islands, supporting a population of 10,000,000, or more than the entire United States a century ago, according to a report received by the National Geographic society. It tells the story of the remarkable development of those islands since the American flag was unfurled over them.

The report shows that their commerce exceeds \$300,000,000, or more than that of the United States in any year prior to 1850. American capital invested in them aggregates approximately \$400,000,000; they ship to the United States \$100,000,000 of their products every year and

take in exchange products of about equal value.

A feature of the report is the development of Porto Rico, Hawaii and the Alaska Islands.

The 1913 Immigration

The latest immigration statistics given out by the bureau of immigration give the figures to the close of November, 1913. There were admitted into this country during the month of November 104,671 aliens. This total is about 30 thousand less than the October record, but ten thousand in advance of the November, 1912, figures. For the eleven months of 1913 the number of aliens admitted was 1,291,831, as compared with 950,045 for the same months of the preceding year. The 1913 figures, which will be approximately 1,400,000, will record the largest number of aliens admitted into the United States in any year of our country's history. The fiscal year 1906-07 has the highest previous record, the total being 1,286,349.

INSURANCE WAR MAY HIT TEXAS

Most Casualty Concerns Will Suspend Writing Workmen's Policy.

THE RATES ARE OBJECTIONAL

(By C. M. Cartwright, Writing for the Chicago Tribune.)

Along with suspension of business of the fire companies in Kentucky, Texas is confronted with the casualty companies suspending the writing of workmen's compensation insurance in that state. An number of companies have given notice that while they will write their other lines in Texas, they will refuse to write workmen's compensation insurance.

The situation in that state is peculiar. The Texas compensation act provides that stock companies shall file their rates with the insurance commissioner, and such rates shall not become effective until approved. The legislature, however, added a condition to this provision to the effect that stock company rates shall not be greater than those of the state mutual company, whose rates shall be the basis for all companies writing workmen's compensation in that state. The company is the Texas Employers' Insurance association.

It has been realized that if the insurance department should approve rates that are adequate for stock companies the state mutual would not be able to secure much business at those rates.

New Rates Cause Suspicion

Business concerns, it is argued would prefer to have their insurance in a stock company with no contingent liability. The mutual being new and untried, with no record for paying dividends or rendering service, would be badly handicapped in competing with the stock companies.

The insurance commissioner, however, approved the stock company rates, to be effective for six months ending May 15. The mutual has been unable to write any business because of these official rates which it must secure. Now the commissioner has approved rates satisfactory to the mutual, which means rates which the stock companies cannot use and come out even.

The large employers in Texas, are much alarmed and have been endeavoring to bring pressure to bear on the commissioner to do something to hold the stock companies in the business. All the stock companies have filed formal protests against the new rate, and the public in general has sent telegrams and letters to the insurance department making an appeal for some change.

SPLENDID WORK OF BOY SCOUTS

Bringing Out What Is Best in Youth of the Land.

LIVING CLOSE TO NATURE.

Among the great movements that have done much to check the tendencies drawing men down the boy scout movement stands out strongly.

The movement has spread like wildfire in America, and there are few cities that do not have their boy scout bands. The boy scout movement makes American boys better Americans. It takes them out of doors and teaches them how to do things they never would learn anywhere else.

While the movement is of great benefit to lads in the country and small towns, in the cities it is of inestimable value. The aim of the leaders of the Boy Scouts of America is to develop men of the type of the great men of history.

As the scout the boy willingly adopts as real and vital the universally accepted principles of life as set forth in the scout oath and law. This effectively influences the boy's nature and character so as better to prepare him for that work which the church can best do.

A scout promises that upon his honor he will do his duty to God, his country and obey the scout law; that he will help other people at all times and that he will keep himself physically strong, mentally awake and morally straight.

Must Be Trustworthy.

The scout law, covering the twelve fundamental principles, requires a scout first of all to be trustworthy. That means that he must not tell a lie, cheat or deceive, but keep every trust sacred. A scout is loyal to all to whom loyalty is due, including his scout leader, his home, his parents and his country. Furthermore, a scout is helpful, prepared at all times to save life, help injured persons and do at least one good turn daily. A scout is friendly to all—a brother to every other scout.

A scout is courteous, especially to women, children and old people, and he must not take pay for being courteous. A scout is kind to animals and does not kill or hurt any living creature needlessly. A scout is obedient. A scout is cheerful, even when facing hardship and drudgery. A scout is thrifty. He works faithfully, wastes nothing and makes the best use of his opportunities. A scout is brave and does what he knows is right, in spite of jeers and threats. A scout is clean in body and thought, stands for clean speech, clean sport, clean habits, and travels with a clean crowd. Finally, a scout is reverent toward God. He is faithful in his religious duties and respects the convictions of others in matters of custom and religion.

"POSSUM HUNTERS" '11' ARE INDICTED

Grand Jury Action in Muhlenburg Quells The Raiders

WITNESS IN JAIL THREE DAYS BEFORE HE WOULD TESTIFY

The grand jury returned forty-two indictments, eleven of which were against so-called "Possum Hunters," who are charged with the crime of banding and confederating together for the purpose of intimidating other persons. The names of those indicted are as follows:

Louis Roark, Elmer Hays, Tom Jackson, Ben Underwood, Floyd Grundy, Arthur Richardson, Henry Allen, Harry Paxton, Sam Sayder, Buck Perry and Jack Thomas.

Floyd Grundy is the person whom the Commonwealth had summoned before the grand jury and who was committed to jail for three days because he refused to answer questions put to him by the grand jury. He finally talked, and was released.

There have been no further acts of violence by the so-called "Possum Hunters," and none is anticipated. Most of the persons indicted have been arrested and are making bonds for their appearance to answer the indictments at the coming September term of the court.

TRAFFIC REDUCTION MAY CAUSE BIG DEFICIT

Exports Fall Off, Imports Increase, and the Cost of Living Remains High

Washington, May 14.—Authoritative figures on the first six months operation of the Underwood-Simmons tariff law show that there has been an increase of imports, a decrease of exports, a falling off of revenues from tariff charges, and a slowing down of manufacturing business. The imports increased 37 per cent over the same period last year, while the exports declined 31 per cent. Notwithstanding the increase in imports, practically all in foodstuffs, the cost of living has not gone down. On fresh meats, for example, the price has soared 30 per cent, since the duty was taken off.

Coincident with the operation of the tariff law is a deficit in the treasury of \$37,097,955, as against a surplus of \$7,895,706 last year. This deficit is attributed to the fact that the returns from the income tax have not begun to come in yet. The treasury department expects them to more than make it up.

TURNERS PLANNING BIG MEET

Evansville to Entertain the Biggest Crowd in History

Evansville, Ind., June 27th. The "hub" of a gigantic wheel and all roads, like spokes, will lead to it June 27th, 28th and 29th. And if credence can be placed in the predictions of several local prophets everybody within two hundred miles will then be traveling these same roads to this city.

The executive committee having in charge the details of the Turnfest-German Day celebration this year have started to work in vigorous fashion with the intention of making it the best and biggest event of its kind ever given here.

Combining the turners' gymnastic exhibitions and competitive drills with the usual gala German Day festivities is sure to prove a great drawing card.

The entertainment committee has already contracted for a number of attractions and negotiations are

on with others. The gorgeous street parade will probably prove the most potent of all the attractions. Many costly floats of unique design are already under construction, and it is expected that the Turner organizations of Chicago, Louisville, Indianapolis, Fort Wayne and South Bend will be represented in the parade in creditable manner.

Mayor Benjamin Bosse, noted for his aggressiveness and systematic handling of big affairs, is chairman of the executive committee and is devoting much of his personal time and attention to the details of this celebration. He is enthusiastic over the prospects of success and confidently predicts the largest number of visitors ever in the city. The merchants and manufacturers are responding liberally with financial assistance, and those situated along the line of parade will decorate their places profusely.

THE CHAMPION

THE FRENCH GOVERNMENT BUYS FAMOUS GIBSON DRAWING.

Splendid Specimen of American Art to Hang in Musee de Luxembourg.

Evansville, Ind.

The world admires a winner—be he a lover or athlete.

Admiration for a man of physical prowess is a phase of human nature rather than the characteristic of an individual—it's instinctive.

Ten years ago while James J. Jeffries was still enjoying the admiration, even idolatry of the public, to say nothing of the emoluments that go with the title, "World's Champion Fighter," the eminent artist, Charles Dana Gibson, made him the subject of a drawing. He gave it the title of "The Champion." It depicted Jeffries strolling along surrounded by an uninvited but admiring crowd. It was widely published because of its "human interest." And who is it, regardless of their personal repugnance for fighting that will not gaze long and admiringly upon "The Champion" should he pass in review?

This pen and ink drawing of Mr. Gibson has been purchased by France for the Musee de Luxembourg. This is one of the most coveted honors of the modern artist. The selection of this particular drawing is a great compliment to Mr. Gibson, and constitutes an official recognition of his great genius.

Art is life and life is art. What more appropriate subject could Mr. Gibson have chosen than "The Champion"? A strong vigorous man—"The Champion"—the best of his kind, representative of the highest physical attainment of man—life itself. The mere title awakens interest instantly. Probably this is made easy by the spirit of primeval man still lurking faintly in every human breast.

On account of the strenuous commercial life of today, when keen competition forces a man to employ his mental faculties under exhausting high pressure, physical development has been woefully neglected. Thinking men everywhere are aware of this fact, and are strongly advocating a lessening of this mental strain in order that the future health of the whole nation may not be jeopardized.

VENETIAN NIGHT AS FINALE

Elaborate Fireworks Display On River to Close Big Event.

Evansville, Ind.

The three day Turnfest-German Day celebration here June 27th, 28th and 29th is to be concluded in a most fitting manner. The climax will be known as Venetian night, and the most spectacular river pageant ever shown on the Ohio river will be presented.

The performers will be on barges in many dramatic scenes. Thousands of multi-colored lights will render this an altogether gorgeous spectacle. The great fireworks display in the center of the river will come last, and conclude what will doubtless prove a wonderfully successful Turnfest-German Day celebration.

GREATEST OF ALL MEMORIAL DAYS WAS THE REUNION AT GETTYSBURG

Photos by American Press Association.

THREE SCENES AT GETTYSBURG DURING THE FIFTY-YEAR-AFTER CELEBRATION.

NEVER again will the world see so splendid a reunion of veterans of the civil war as that which assembled at Gettysburg July 2, 3 and 4, 1913, the fiftieth anniversary of the greatest battle of the war. Fifty thousand veterans of both sides gathered to participate in the formal and informal celebrations and to fraternize not only with their brethren of their own side, but with the survivors of the other cause. It was the glorious climax of the "one land, one flag" movement which has united north and south since the unhappy days of the war.

A Southern Spy A Memorial Day Story

By CAPTAIN F. A. MITCHEL.

[Copyright, 1914, by American Press Association.]

IN our regiment in Virginia in 1863 was a soldier in the ranks who was a thoroughbred. No one even of his own company seemed to know exactly when or where he enlisted, where was his home or anything else about him except that he said he was a Marylander. Maryland was a border state, the inhabitants being part northern and part southern in their sympathies.

There was nothing unusual about Davis' fighting on the Union side, for in the border states whole Federal regiments were made up of their citizens. But it was singular to hear him abusing Confederates with the accent of a southern man.

Davis in other respects was a good natured fellow, perfectly fearless and seemed to have no selfishness in his nature—indeed, was a type of the real southern gentleman. We wondered why he had not been able to obtain a commission, but he reminded us that the flower of the Maryland population was on the southern side. Maryland was not a good state for northerners.

We were cavalry, and Davis was one of the best of us so far as horsemanship was concerned. He was constantly being punished for roaming about wherever he liked. He rode all over our camps and, whenever he took a fancy to do so, sallied forth single handed against the Confederate pickets. That he was a good fighter was evident whenever there was trouble on the picket lines. On such occasions he would ride right up under the enemy's rifles. He always came back unhurt, and we could never understand how he managed to escape.

One night while out on vedette duty Davis disappeared. Shooting was heard in the direction of the point where he was stationed, and it was believed that at last he had reaped the payment of his recklessness. A party was sent out next morning to look for his body, but it was not found.

Six months passed, during which everything was changed with us. Arrives like packs of cards—they are constantly being shuffled. One day while on picket duty I saw a man running from the Confederate lines toward ours, while men on that side were firing at him. "There comes a deserter," I remarked. The man stumbled two or three times, fell, got up and came on, reaching us in safety. I was at

the time a sergeant in command of the picket post into which he ran, and he came right up to me.

What was my astonishment to see Davis!

Davis' astonishment at seeing me was equally great. Besides astonishment, I noticed chagrin. His face fell momentarily; then, grasping my hand, he shook it heartily, exclaiming:

"How are you, Charlie? What luck to come in right among my own boys?" I withdrew my hand, saying to him, "I don't shake with deserters."

"Deserter! I reckon I am a deserter. I had to be or fight with those cursed southerners."

"I mean deserter from our side."

Davis looked hurt. He told a story of having ridden on the night of his

him the fact that he was a southerner, ordered that he be held under arrest and charges of desertion be made against him.

Davis laughed at the idea of charges against a man who hated Confederates as he hated poison, and if he felt the least doubt about his being able to clear himself none of us could detect it.

But the evidence came in heavy against him. He was recognized as having belonged to an entirely different corps from ours and as having played the same game before, doubtless serving as a Federal soldier and carrying information to Confederate generals. Before the court finished the case it came out that Davis belonged to an old Maryland family, that he held a commission as lieutenant colonel in the Confederate army and was high in favor with several Confederate generals, whom he had furnished with enough information to enable any army to defeat twice its numbers.

Davis was sentenced to be hanged. His family might have saved his life had he been convicted of desertion. Indeed, they were handicapped, knowing that he was a spy—in fact, an officer of high rank in the Confederate army. The best they could do for him was to obtain a change in the mode of his death. The sentence was made shooting instead of hanging.

Davis maintained the same coolness of outward appearance to the moment of his death. Before he was a spy of the enemy; now he was one of nature's princes.

AN OLD BATTLEFIELD.

The softest whisperings of the scent-ed south.
And rust and roses in the cannon's mouth.
And where the thunders of the fight were born
The wind's sweet tenor in the stand-ing corn.
With songs of larks, low lingering in the loam,
And low siles bending over love and home.
But still the thought; Somewhere upon the hills
Or where the vales ring with the whippoorwills,
Sail, wistful eyes and broken hearts that beat
For the loved sound of unreturning feet.
And when the oaks their leafy banners wave
Dream of the battle and an un-marked grave!
—Frank L. Stanton.

THE GOVERNOR WILL ATTEND

THE STATE'S CHIEF EXECUTIVE WILL REVIEW GORGEOUS PARADE.

Evansville, Ind.

Mayor Benjamin Bosse has been advised by Governor S. M. Ralston, that if nothing develops to prevent his doing so he and his staff will review the big Turnfest-German Day parade here on Monday, June 29th.

It is confidently predicted by members of the executive committee, having in charge the details of this year's celebration, that all attendance records will be broken. The attractions are more numerous and of higher order than ever before. The street parade will be the best seen in years outside of New Orleans and St. Louis.

GOV. SAMUEL M. RALSTON. Will Review Evansville Parade.

On the same day of the parade, which will be the last of three days of continuous festivities, an immense public picnic will be given at beautiful Oak Summit Park in the suburbs of the city. It is being planned to have some orator of national reputation address those assembled at this picnic. It is possible Gov. Ralston may consent to do this.

That same night the water festival on the Ohio River will be viewed by a record crowd. Magnificent fire works display and living picture groups posed by the different Turner societies under an effective arrangement of multi-colored lights, will terminate the celebration.

This year's celebration is on a more elaborate scale than ever before attempted, and is sure to prove an event long to be remembered. Turner organizations from several of the larger cities will attend in a body and compete for prizes. Many thousands of visitors are expected from the surrounding territory.

EVANSVILLE'S BIG EVENT

Success of Turnfest-German Day Celebration Assured.

Evansville, Ind.

The prompt and liberal manner in which the merchants and manufacturers of this city have responded to the call of the executive committee makes it secure that this year's three-day festival will be highly successful.

It is the first time the allied German societies of this vicinity and the Turners of the German Gymnastic Association have combined their celebrations. Heretofore each was given at a different season of the year and were also big successes when thus given separately. Now that the two events are combined into a three-day Turnfest-German Day festival it is sure to prove the biggest drawing card and all round success in the history of this city.

It has been planned to have Gov. Ralston attend as guest of honor and review the great street parade on Monday, June 29th. If nothing develops to prevent, the chief executive will be accompanied by his full staff. The city will be in gala attire that day, particularly on the line of march.

Practically every business house has agreed to decorate their places profusely. Sufficient liberal donations have been made to assure the financial success of the undertaking.

Turner societies from Chicago, St. Louis, Louisville, Indianapolis, Terre Haute, Ft. Wayne and some other smaller places have announced their intention of coming to compete for the athletic medals and mass drill prizes. These events will prove well worth traveling many miles to see.

It has been planned not to have a dull moment during the whole three days. Beginning Saturday morning, June 27th, with the athletic field day and concluding Monday night with the great fire works exhibition on barges on the Ohio River opposite the city, everything will move rapidly and systematically. The city authorities are preparing to handle many thousands of visitors. Mayor Bosse, president of the executive committee, is jubilant over the prospects. Others of the committee are equally sanguine of success.

One of the Floats for Big Evansville Parade

LORELEI

One of the many beautiful floats that will be seen in the great street pageant of the Turnfest-German Day celebration in Evansville, on Monday, June 29th. This design depicts the enthrallment of a German sailor and a student by Lorelei, the Circle of the Rhine. The Lorelei is seen seated on a rock combing her golden tresses and singing; at her feet is a boat in which the sailor is vainly trying to row away, but his efforts are rendered futile by her charms. A board of censors has been appointed to keep a watchful eye on all floats intended for entry in this parade. None but those possessing high artistic merit will be permitted to participate. The executive committee, having in charge the details of this parade are determined to make it class with those famous street pageants of New Orleans and St. Louis. Many thousands of visitors from the surrounding country are expected as guests of Evansville on that day.

KEEP THE KIDNEYS WELL

Health is Worth Saving, and Some Ear-
lington People Know How
to Save It

Many Earlington people take their
lives in their hands by neglecting
the kidneys when they know these
organs need help. Weak kidneys
are responsible for a vast amount of
suffering and ill health—the slight-
est delay is dangerous. Use Doan's
Kidney Pills—a remedy that has
helped thousands of kidney suffer-
ers. Here's an Earlington citizen's
recommendation.

Mrs. M. Cawley, Earlington, Ky.,
says: "I have used Doan's Kidney
Pills in our family and have found
them very good. Whenever we have
kidney trouble and pains in the
back, a few doses of Doan's Kidney
Pills cured it. They are also good
for children to use."

Price 50c at all dealers. Don't
simply ask for a kidney remedy—
get Doan's Kidney Pills—the same
that Mrs. Cawley recommends. Fos-

BIG AGRICULTURAL LAND OPENING

TWELVE HUNDRED AND FIFTY TRACTS of five and ten acres each to be granted to prospective
settlers in throwing open thirty thousand acres of rich Southern Georgia land, which is admirably adapt-
ed to the growing of celery, sweet and Irish potatoes, cantaloupes, water melons, corn, wheat, cotton, hay—in-
fact, all staple crops grown in this fertile section, as well as a large variety of semi-tropical fruits, and the
immense profitable paper-shedded pecans.

Providing you are eligible under the classifications prescribed by us, you are now offered an excellent op-
portunity to break way from the drudgery and toil of a small wage, or working for the benefit of landlords,
and go back to the land of plenty, to which, if granted, you will hold a warranty deed an abstract.

The best security of earth is the earth itself, and land is the basis of all wealth. Owners of productive
lands are benefiting by the increasing high cost of living, while others are suffering from it.

An Opportunity to Secure Rich Productive Land Without Capital.

You will not be required to leave your present sur-
roundings now. All we ask of those to whom we
grant tracts is that they plant, or arrange to have
planted, a crop of one of the above-mentioned pro-
ducts within three years, after which we will have
it operated (harvested and replanted) for grantees,
in consideration of 25 per cent. of the net profits de-
rived from the sale of the crops, thereby allowing
the grantee to pursue his or her present occupation
until such time as they determine just what the
yield of their acres amounts to. Consider what this
may mean as a source of income, when statistics
show that the yield of one acre of celery amounted
to \$1,268.45, and that one acre of well-cared-for paper
shell pecans, in full bearing, should net its owner as
high as \$500.00 per year. We are of the opinion that
after it is proven by actual results obtained in oper-
ating the land that they will need no further urging,
and waste no time in locating in this land of plenty.
We also require grantees to occupy the land within
ten years, or sell it to some one who will occupy it;
otherwise it reverts back to the grantor.

The land included in this opening is located direct-
ly on an adjoining the Atlanta, Birmingham and
Atlantic Railroad, about twenty-five miles west of
Brunswick, a thriving city of fifteen thousand, hav-
ing direct steamship service to New York and Bos-
ton, an excellent railroad transportation facilities
to all points. The average temperature for six
months of the year, from April to October, is 77 de-
grees; the climate is most healthful, delightful, and
there is an ample rainfall of 51 inches per year.

OUR AIM IS FOR MUTUALLY BENEFICIAL RESULTS

As we are extremely desirous of having settlers
locate on this property, and assist in its develop-

ment, and thereby greatly increase the value of sur-
rounding and intervening property, which we will hold,
and to increase the traffic along the Atlanta, Birming-
ham and Atlantic Railroad, and thus facilitate the ser-
vice, we feel warranted in granting these tracts to those
who register with us. We also have in mind business
and residence plots which we will offer for sale after
the opening, but which will not be included in it. We
have "money-making afterthought" considerations in this
liberal-minded opening, similar to those of the North-
ern Pacific and other railroads when they granted their
lands, and we expect to benefit thereby, as well as the
one who will receive the tracts.

We have also planned to develop what is designed
to be the best equipped, most up-to-date, scientific,
commercial farm and orchard in existence. It will con-
sist of six thousand acres, and will be included in the
opening. All who register and receive tracts will get
the benefit of the experiments and scientific methods
in vogue thereon. While we are arranging to prevent
over-registration, we will avoid many disappointments,
such as occurred in other land openings conducted by
the United States Government and railroads, by grant-
ing those who register in excess of the number of tracts
to be granted, an interest in this commercial farm and
orchard enterprise, in the hope that they may later lo-
cate in one of our town sites.

Examination of the land will cheerfully be permit-
ted, and the opening will be held at Brownstown, Wayne
County Georgia, one of the stations of the A. B. & A.
Railroad, which is located on this property, and will
occur as soon after the closing of registrations as ar-
rangements can be made.

The presence of those registered will not be necessary at Brownstown on the opening day, unless they
wish to attend, for their will be no favoritism shown anyone. It will be conducted by a committee selected
for the purpose, and those registered will be notified of what they have been granted, as soon as possible.

With the ever-increasing population of this country there is no corresponding increase in the area of land,
and naturally as the population increases and seeks the land in pursuit of health, happiness and indepen-
dence, it will continue to be harder to secure.

The prosperous and contented class in Europe to-day are the descendants of those who secured land there
when it was plentiful, while the descendants of those who obtained no land are now the peasants and slaves.
You must realize that this may be your last chance to secure land in this country without a large outlay of
capital, so it should not be necessary to urge you to act at once by forwarding us the application for registra-
tion attached to this announcement.

FAMOUS CONTEMPT CASES

TURN ON TECHNICAL POINT

Washington, May 13.—Ending
seven years of bitter legal war-
fare, the supreme court today
set aside sentences imposed by
the District of Columbia supreme
court upon Samuel Gompers,
John Mitchell and Frank Morris-
son for contempt of court in al-
leged violation of injunctions
issued in 1907 and 1908 against
boycotting the Buck's Stove &
Range company. The question
of whether the act of the labor
leaders constituted contempt was
not passed upon, the court dis-
posing of the cases by holding
prosecutions, was barred by the
statute of limitations, the pro-
ceedings having been started
more than three years after the
alleged offenses.

Compound the praise it deserves,
for I have taken it
at different times
and it always re-
lieved me when
other medicines
failed, and when I
hear a woman com-
plain I always re-
commend it. Last win-
ter I was attacked
with a severe case of organic weakness.
I had backache, pains in my hips and
over my kidneys, headache, dizziness,
lassitude, had no energy, limbs ached
and I was always tired. I had taken
Lydia E. Pinkham's Vegetable Compound
on one other occasion, and it had
helped me so I took it again and it has
built me up, until now I feel like a new

PLANT BEDS.

Destroyed in Daviess County—Unknown Men Under Cover of Darkness Visit Farmers

Owensboro, Ky., May 14.—Under the cover of darkness, lawless men, riding in two buggies, visited two farmers on the Hartford road some time during Tuesday night and completely destroyed the tobacco plant beds. The canvass was torn from the beds and the plants were cut and scraped to pieces, not one being left.

The first visit was to the farm of Massie Bros. on the Hartford road, a few miles from Owensboro. The farm is in charge of J. T. Jones. Mr. Jones stated that the majority of the plants were the property of tenants, who had made no provision for any crop with the exception of tobacco. Six or seven beds were destroyed on the Massie farm. Mr. Jones stated that he had always pooled his tobacco with the Green River Tobacco Growers' Association.

After the beds at the Massie farm had been destroyed the men went to Roy Yewell's farm, which is in a short distance from the Hartford road, and ruined seventeen beds for him. Mr. Yewell stated on Tuesday night that he was not a member of any of the pooling association.

This is the first act of lawlessness that has ever occurred in Daviess county in connection with tobacco raising. Last year in the Stemming district, composed of Hopkins, Henderson, Webster, Union and Crittenden counties, hundreds of plant beds were scraped.

Forest Fire Season Gets Early Start

The first reports of forest fires have begun to come in to Washington from the national forests and they indicate to the federal officers an early start of the fire season, with unfavorable weather conditions from the very beginning. In the northwest there was less snow on the mountains at the end of the winter than for many years past. Railroad rights-of-way which were last year deep in snow are reported clear now and dry enough to burn readily.

From the Canadian border to Mexico the reports are similar, and there have already been extensive fires in California and Arizona.

The chief forester reports, however, that the fire-fighting forces of the service are organized better than ever before, particularly in respect to the fire detection system of lookout stations. By means of these stations fires are reported quickly and accurately, so that the control forces may be on the ground at the earliest possible moment.

In those states where the gravest danger threatens, special efforts are being made by the government foresters and by co-operative fire protection associations organized among timberland owners, to secure safe with fire on the part of campers, prospectors, loggers and by railroads. The northwestern forestry and conservation association, with headquarters at Portland, Ore., is one of the leaders in this campaign.

Accidents will happen, but the best regulated families keep Dr. Thomas' Eclectic Oil for such emergencies. Two sizes 25 and 50c at all stores.

FOREST NOTES

Angora goats have been used with profit to keep fire lines clear of inflammable vegetation on national forests in California.

Last year the fire loss on the Canadian timber reserves was the smallest ever known, only one fiftieth of one per cent of the area being burned over.

Zentaro Kawase, professor of forestry at the imperial university of Tokio, Japan, has been making a tour of the national forests of this country to learn the government's methods of selling timber and of reforestation.

More than 858,000 young trees are being set out this spring on national forests in Utah and southern Idaho, and the season is reported as particularly favorable to their successful growth.

Armstrong lake, within the Beartooth national forest, Montana, is said to rival the famed Lake Louise of the Canadian Rockies. It lies at an elevation of 7,000 feet surrounded by towering mountains. A good road which can be traveled in half a day by automobile connects it with the railroad at Billings. A rustic hotel has recently been completed, and many trails make the surrounding regions accessible.

Twelve Reasons Why You Should Buy Your Groceries of Us

No. 5.

BECAUSE we always carry honest bargains.

We make it a business policy to buy certain articles regularly in large quantities.

Then we take a very small profit.

St. Bernard Mining Company INCORPORATED Grocery Department

The June Woman's Home Companion

In the June Woman's Home Companion appear a number of letters and one or two articles containing valuable vacation ideas and suggestions. Among the titles of special interest in this connection are: "Ways and Means of Taking a Vacation"—a collection of letters from various contributors; "Two Foreign Lands in Two Weeks," in which Albert Lee makes a practical suggestion of a trip to St. Pierre on the islands of Miquelon and to Nova Scotia—a trip which can be made by two people in two weeks at a total expense of \$124.60; "Ideas for Summer Girls," by Companion readers; and "The Best Nature Books," in which Laura Spencer Porter makes suggestions for reading

for June.

Of course many other articles are included in the number, such, for example, as "To the Girl Who Wants to Sing," in which Putnam Griswold tells why so many girls fail, who is to blame, what kind of talent is really needed, and where to study to win success; "The World's Greatest Paintings," by Laura Spencer Porter; "The Friends of 'Better Babies,'" by Anna Stesse Richardson; and "The Safe Ice Box," by Walter Peet, a physician.

Fiction is contributed by Mary Heaton Vorse, Molly Elliot Seawell, Fannie Heastip Lea, Temple Bailey, Georgia Wood Parzborn, Clarice Vallette McCauley and Margarita Spalding Gerry. The regular Fashion, Cooking,

Housekeeping, Home Decoration, Puzzle, Toy Room, Young People's and About People departments complete a fresh and attractive number.

"The Greatest Kidney Remedy on Earth" Says a Grateful Woman

I want to tell you how much good your Swamp-Root did me. About four years ago, I suffered from what the doctors called fistula and for two years of that time, I endured what no tongue can tell. I also had inflammation of the bladder and I tried doctors medicines without receiving any help. Someone told me about Dr. Kilmer's Swamp-Root. After giving it a thorough trial, I received relief, so keep on using it and today I am a strong and well woman. If I ever feel badly or out of sorts, I take Swamp-Root and it always straightens me out. I honestly believe that this medicine would cure all troubles you recommend it for and it is a pleasure for me to send my testimony and photograph to you. I think Dr. Kilmer's Swamp-Root is one of the greatest medicines on earth. Respectfully yours,

MRS. JNO. BAILY.
West Main St., Portland, Ind.

Prove What Swamp-Root Will do for You
Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing be sure and mention the Earlington Semi-Weekly Bee. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

COLORED COLUMN.

REV. J. R. EVANS, EDITOR

Let Sisk Book Store, either in Earlington or Madisonville, paper your walls—Wall Paper can be bought here cheaper than any place in the State of Kentucky.

Elna Orr and John Trice are very sick at this writing!

Uncle Will Radford is able to be out again.

Joe Gough and Richard Moore are much improved.

The Odd Fellows Thanksgiving sermon preached by Rev. Backner,

of Madisonville, at the Mt. Zion Baptist church last Sunday was a gem. A large audience greeted the speaker and all went away well pleased with the services.

We regret very much to announce to the public that the special train that Supt. Wm. Killbrow had hoped to run to run to Hopkinsville, will not run. The R. R. wants full fare from each passenger, which will be no special favor to the passengers. We may be able to secure party tickets for those who desire to go.

Last Sunday was Mothers' Day at the Churches of the city. Delightful services were reported at each church.

The Mt. Zion Baptist church will have baptizing next Sunday immediately after the morning services. We trust that all candidates will be ready at that time.

"TIZ" EASES TIRED SORE, SWOLLEN FEET

Just take your shoes off and then put those weary, shoe-crinkled, aching, burning, corn-pestered, bunion tortured feet of yours in a "TIZ" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "TIZ" bath.

When your feet feel all tired out—just try "TIZ." U's grand—Your feet will dance with joy; no more pain in corns, callouses and bunions. There's nothing like "TIZ." It's the only remedy that draws out all the poisonous exudations which puff up your feet and causes foot torture.

Get a 25 cent box of "TIZ" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel. You can wear shoes a size smaller if you desire.

Sparrows Don't Like Oil.
To keep sparrows from roosting or nesting stuff the places with rags dipped in kerosene. In a day or two they will give up the places.

Graniteware Bargain Week at

The Earlington Hardware Store

Beginning Saturday May 16th and until Saturday, May 23rd, I will have my show window filled with bargains in Granite ware. Every article in this window will be 5 and 10 cents unless otherwise marked. There will be special bargains each day during this sale, such as 60 cent large Bake Pans for 25 cents.

Remember this cool weather will be gone in a few days and you should have your house securely screened before hot weather comes to keep out the death dealing flies. I have Screen Wire from 24 to 48 inches wide and the price is right.

Ask to see the \$10.00 CARPET SWEEPER and VACUUM CLEANER the Bee is putting out with a years subscription for \$5.00. I will be glad to demonstrate them for you.

W. H. Whitford
Proprietor.
